

# Pensions (R)evolution Breakfast Seminar

## The Pace of Change

Come along to our breakfast seminar, where we offer you the opportunity to draw breath and take stock of some of the latest issues affecting decision-making in pensions.

Our action-focused seminar will consider recent legislative developments and case law on topics including employer debt, transfers and the index used to increase benefits. What new options are open to trustees and employers and what are the associated risks? What are the practical implications of the recent announcements in the White Paper?

The seminar programme will appeal to pensions professionals, trustees and employers with occupational pension plans. Come and join us for a delicious breakfast and some thought-provoking discussion. Feel free to pass on our invitation to others in your organisation who may be interested in joining us.
